

The Charlotte Square *logo*

The logo, the wordmark and the C, drawn from the website's own lettering and colors. Every version comes in four colors, as SVG, PDF and PNG. The folders are named after the versions below.

THE VERSIONS

 Horizontal logo The main logo. Use this one first. logo-horizontal	 Horizontal, short Without "at the East End", for small or tight spaces. logo-horizontal-short	 Stacked logo For square spaces: signs, flyers, social posts. logo-stacked
 Stacked, short The stacked logo without "at the East End". logo-stacked-short	 Wordmark The name on its own, for when the C is already nearby. wordmark	 Wordmark, centered The same, centered, for covers and signs. wordmark-centered
 Wordmark, short Just "Charlotte Square". wordmark-short	 The C The building's sign. For icons and very small spaces. mark	 Profile picture For Instagram, Facebook and Google. The C sits inside the circle they crop to. social

LOGO KIT
USING IT

WHICH FILE TO USE

PNG

Websites, email signatures, social posts, Word, Google Docs and slides.
Transparent backgrounds. Three widths: 600, 1200 and 2400 pixels (the C: 256 to 2048). Pick one at least twice as wide as it will show.

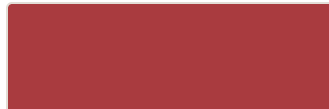

SVG

For web developers and designers. Sharp at any size and the smallest files.

PDF

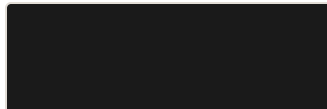

For printers, sign makers and Illustrator. Sharp at any size. The white versions look blank on a white page; they are there.

COLORS

Brick red

For print there is no official Pantone or CMYK match yet. Give the printer #A93B3F and ask for a proof, or hold it against the sign on the building.

LETTERING

Instrument Serif *Italic*

"Charlotte" in regular, "Square" in italic.

DM SANS BOLD

"At the East End", in capitals, spaced out.

Both are free from Google Fonts and are the website's fonts. The logo files don't need them: the lettering is already drawn in.

GIVE IT ROOM

¼ of the C's square on every side

Keep text, edges and other logos at least a quarter of the red square's height away.

PLEASE DON'T

- Stretch, squash, tilt or rotate it.
- Change the colors, or put the red C on a red or busy background.
- Move, resize or swap the parts.
- Add shadows, outlines or effects.
- Retype the name in another font.
- Use a screenshot or a copy from the website. Use these files.

Smallest sizes

Horizontal logo: 150 pixels wide on screen, 1.5 inches in print.
Stacked logo: 250 pixels, 2 inches.
The C: 16 pixels, ¼ inch.
Smaller than that, use a short version or the C.
